

SPECIFIC IMPACT HAZARDS

I. INTRODUCTION

Hazard rankings (Table 1, Basic Plan) identify a variety of potential threats that could impact the State of South Carolina. Direction, control, and response procedures applicable to this annex are addressed in the basic plan. Nuclear power plant accidents, hurricanes, dam failures, and civil disturbances are recognized hazards in South Carolina. Most of these hazards are addressed in single hazard plans. In such cases, this annex will refer to those plans. When the hazard is not addressed in a single-hazard plan, that hazard will be specifically highlighted in attachments to this annex.

II. MISSION

To provide a coordinated application of state resources for the threats highlighted in this annex.

III. CONCEPT OF OPERATIONS

- A. The policy of the State of South Carolina is to be prepared for any emergency or disaster. South Carolina State Regulations 58-1 and 58-101 require contingency plans and implementing procedures for major hazards led by the state and coordinated with counties that have a potential of being impacted.
- B. Coordination with all appropriate departments/agencies and organizations will be performed to ensure operational readiness in time of emergency.
- C. Hazard-specific plans and supporting standard operating procedures (SOPs) will be developed and maintained by the appropriate state organization as outlined in the responsibilities section below.
- D. Under the general coordination of the Director, SCEMD, all appropriate state agencies will provide support as outlined in the single-hazard plan or as specified in attachments to this annex.

IV. RESPONSIBILITIES

- A. SC Emergency Management Division: Develop and maintain the following plans or annexes:
 - 1. Radiological Hazards (in coordination with Department of Health and Environmental Control).
 - 2. Hurricane Preparedness.

3. Earthquake Preparedness.
 4. Dam Failure Preparedness.
 5. Terrorism Incident (in coordination with the SC Law Enforcement Division).
 6. Recovery Plan.
- B. SC Law Enforcement Division: Develop and maintain the following plans or annexes:
1. Civil Disturbance Plan.
 2. Terrorism Incident Plan (in coordination with the SC Emergency Management Division).
- C. Department of Health and Environmental Control: In coordination with the SC Emergency Management Division, develop and maintain the Radiological Hazards Plan and Mass Casualty Plan.
- D. Department of Social Services: Develop and maintain the Emergency Repatriation Plan.

V. FEDERAL INTERFACE

There is no direct counterpart to this annex in National Response Plan. Federal response is as outlined the National Response Plan or in each attachment.

ATTACHMENTS

- A - Radiological Hazards
- B - Hurricane Preparedness
- C - Earthquake Preparedness
- D - Dam Failure Preparedness
- E - Civil Disturbance
- F - Terrorism Incident
- G - Emergency Repatriation
- H - Mass Casualty Plan
- I - Recovery Plan
